About US

Our quest for alternatives to home food started in the winter of 2018 when a group of bachelors from India arrived in Eindhoven for an "onsite assignment". Searching for easy lunch options during weekdays, they ended up eating rice and ready-to-eat sides coming out of cardboard boxes or had to devise an elaborate cooking plan that could put a rocket launch schedule to shame. Needless to say, the prepackaged contents laden with preservatives took a toll on their health or the cooking plan backfired quite miserably that they had to be content with Bread.

It is from innumerable incidences like these, Bento van India(BvI) was born. Our mission is to serve Vegetarian Lunches to the Indian Diaspora at their workplace. We even made this healthier by making it gluten free!! Each plate of food is hygienically made by home cooks from fresh produce without adding any artificial colors or preservatives. We service offices that are in and around Eindhoven city center or the Hi-Tech Campus.

With our weekly subscription plans and healthy menu that is carefully chosen to keep you fired for the rest of the day, we try to keep your lunch a hassle free affair. We hope you enjoy our meal the same way we feel in putting this together in to the box each day.
